-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136 (a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).

Status

- 1) ☒ Responsive to communication(s) filed on 05 June 2000.
- 2a) ☐ This action is FINAL. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1 and 17-39 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☒ Claim(s) 1 and 17-39 is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claims _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on _____ is/are objected to by the Examiner.
- 11) ☐ The proposed drawing correction filed on _____ is: a) ☐ approved b) ☐ disapproved.
- 12) ☐ The oath or declaration is objected to by the Examiner.

Priority under 35 U.S.C. § 119

- 13) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d).
- a) ☐ All b) ☐ Some * c) ☐ None of the CERTIFIED copies of the priority documents have been:
1. ☐ received.
2. ☐ received in Application No. (Series Code / Serial Number) _____.
3. ☐ received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).
- * See the attached detailed Office action for a list of the certified copies not received.
- 14) ☐ Acknowledgement is made of a claim for domestic priority under 35 U.S.C. & 119(e).

Attachment(s)

- 15) ☒ Notice of References Cited (PTO-892)
- 16) ☐ Notice of Draftsperson's Patent Drawing Review (PTO-948)
- 17) ☒ Information Disclosure Statement(s) (PTO-1449) Paper No(s) Z.
- 18) ☒ Interview Summary (PTO-413) Paper No(s). 13 & 14.
- 19) ☐ Notice of Informal Patent Application (PTO-152)
- 20) ☐ Other:

DETEAILED ACTION

Applicants' Remarks filed June 5, 2000 have been fully considered and are persuasive to remove the grounds of rejection in the prior office action, therefore, the finality of that action is withdrawn. Applicants' amendment filed June 5, 2000 has been entered. A new ground of rejection follows below.

Claim Rejections 35 U.S.C. – 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1 and 17-39 are rejected under 35 U.S.C. 103(a) as being unpatentable over HIRAIWA DAIKU (Derwent publication abstract No. 77-872784, IDS of Jan. 29, 1999, BD) in view of Yoshitomi Pharm. (Derwent publication abstract No. 81-06781D, IDS of Jan. 29, 1999, BE), Yamauchi (CA abstract, AN: 1993:497510), Kodama et al. (WO 95/22902, IDS of Jan. 29, 1999, AB) and Metzner et al. (CA Abstract, AN: 1987:454179).
3. HIRAIWA DAIKU teach a wood adhesive composition consisting essentially of a suitable amount of insecticide and an adhesive. The preferred adhesives are thermosetting resins, e.g., phenol resin, and thermoplastic resins, e.g., polyvinylacetate. The ratio of insecticides to the adhesive is about 1:10 to 1: 200. See the abstract.
4. HIRAIWA DAIKU do not teach expressly the employment of the specific insecticidal pyrazole compound, e.g., fipronil, and some of the specific adhesive resins, such as ethylene-

Art Unit: 1617

vinyl-acetate copolymer, phenol-formaldehyde resin and resorcinol-formaldehyde resin, in the composition.

5. However, Kodama et al. teach that pyrazole compounds including fipronil are known to be useful as insecticides. See pages 2-3, particularly, page 2, lines 15-16. The compounds are known to be useful against termites in various wood products such as plywood, particle board and furniture. See, particularly, page 6, lines 4-9. Yoshitomi Pharm teaches that phenol-formaldehyde resin and resorcinol-formaldehyde resin are known to be useful as wood adhesives. See the abstract. Yamauchi teaches that ethylene-vinyl acetate copolymer is known to be useful as a wood adhesive. Further, Metzner et al. teach that compositions consisting of adhesive and a biocide particularly against termites are known to be useful in wood products. See the abstract.

Therefore, it would have been prima facie obvious to a person of ordinary skill in the art, at the time the claimed the invention was made, to modify the composition of HIRAIWA DAIKU by employing the specific compounds cited in the instant claims, e.g., fipronil as the insecticide and the specific resins cited in the instant claims as the adhesive resin.

A person of ordinary skill in the art would have been motivated to modify the composition of HIRAIWA DAIKU by employing the specific compounds cited in the instant claims, e.g., fipronil as the insecticide and the specific resins cited in the instant claims as the adhesive resin because pyrazole compounds including fipronil are known to be useful as insecticides against termites and compositions consisting of an adhesive and an insecticide particularly against termites are known to be useful in wood products. Further, all the resins employed in the instant claims are known to be useful as wood adhesives. The selection of a

Art Unit: 1617

specific resin, e.g., ethylene-vinyl acetate copolymer, phenol-formaldehyde resin or resorcinol-formaldehyde resin is seen to be a selection from amongst equally suitable material and as such obvious, absent evidence to the contrary. Ex parte Winters 11 USPQ 2nd 1387 (at 1388).

Furthermore, wood based materials made with a composition suggested to be useful in wood based materials is considered within the skill of artisan.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Shengjun Wang, Ph.D. whose telephone number is (703) 308-4554. The examiner can normally be reached on Monday-Friday from 8:30 to 5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Minna Moezie, J.D., can be reached on (703) 308-4612. The fax phone number for the organization where this application or proceeding is assigned is (703) 308-4556.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-1235.
